LWCS, FBCC, and Community Sponsors present

# Space Day 2008

Saturday, April 26, 2008

**Life Way Christian School, a ministry of First Baptist Church of Centerton, will host a community-wide FREE SPACE DAY for all ages!**

Schools, churches, home school groups, and families are all welcome! (Children must be accompanied by an adult.)

## 10 AM to 3 PM

Middle and High School Life Way Students and an adult chaperone will be the Space Camp Leaders guiding families into classrooms full of fun and exploration.

- Experience Mission Control with former NASA professional, Alan Baker.
- Partake in a shuttle simulation with former NASA programmer, Jeffery Mansfield.
- Learn to build engine and water bottle rockets.
- Learn about the planets and space exploration in hands-on fun.
- Explore the stars with STARLAB and soda can constellations.
- Enter a creative story contest about the first monkey in space for a chance to win a plush monkey suited for space.
- Learn about the moon while playing in Moon Sand® and jumping on the Moon Bounce.
- Tour the Space Museum made by LWCS students.

Explore the constellations with Tammy Edwards, U.S. SPACE CAMP® Educator Alumni, as she presents STARLAB, an inflatable planetarium!

## 3 PM to 4 PM

Astronaut William Pogue, pilot of the 1973 SKYLAB, will share his experience and answer questions about living in space.

## 4 PM to 5 PM

LWCS Astronomy Club will launch rockets for all to observe. They will even select some younger students' rockets built at Space Day Camp and launch those as well!

## 5 PM to 7 PM

Enjoy exploring the universe with multi-media features on the big screen!

## 7 PM to 9 PM

Enjoy viewing the heavens together through a variety of telescopes. Please bring yours if you have one!

Space Day will be at Life Way Christian School in Centerton, off of Highway 102, in Building A on the south side of the campus. Please contact the school at (479) 795-9322 for additional information.
